PROGRAM OUTCOMES, PROGRAM SPECIFIC OUTCOMES AND COURSE OUTCOMES DEFINITION

Program Outcomes (POs): PO are narrow statements that describe what the students are expected to know and would be able to do upon the graduation. These relate to the skills, knowledge, and behaviour that students acquire through the programme.

Program Specific Outcomes (PSOs): Program Specific Outcomes are statements that describe what the graduates of a specific subject specialization should be able to do.

Course Outcomes (COs): Course outcomes are the statements that describe what students are expected to know, and be able to do at the end of each course/subject. While the POs define the departmental outcomes, the COs are more oriented towards the subjects
